

Independent Study Work & Sample Due Dates

Throughout the school year, you will be turning in independent study work and samples. These are critical to have them to demonstrate student learning and claim attendance for the students. Samples are the only way we can claim attendance for students in an independent study program. For every sample missing, we lose one-sixth of the funding for that student, even if they did the work and attended. If a student fails to turn in their work or samples by the given Missing Assignment Report Compact Violation (MAR/CV) date, they will receive a MAR/CV and an improvement plan for submitting all necessary work.

For each independent study class, please fill out the appropriate grade form and attach only the logs or tests/quizzes for the necessary modules. Record the homework grade but do not submit it all to me. Below is the schedule we will be using. The first is for independent study work submission deadlines. The second are the sample due dates.

Having a set, clear schedule for what needs to be accomplished will help all of us stay on track. If you receive 3 MAR/CV's in one school year, you will be asked to leave CBHS. We want everyone to stay, so mark your calendars and let's do this together!
